

# AUCKLAND PUBLIC POLICY SEMINAR SERIES

## ***Informed Thinking on Frequent, Connected and Visible Metropolitan-Wide Public Transport***

*Dr David Hensher, University of Sydney*

**Thursday 1 July, 12.30 - 2.00 pm**

*Reception Lounge, Auckland Town Hall, 301 Queen St  
(entrance under the clocktower)*

### **Abstract**

*In developing appropriate transport 'solutions' for our cities we must be cognizant of the spatial setting within which transport can support accessibility. Doing so emphasises the system as a whole, rather than as a series of projects and corridors. This talk focuses on transport in a spatial setting. It discusses opportunities to improve public transport and its value for money. It also discusses sources of funding and what new sources should be harnessed if we are to deliver real accessibility and environmental benefits.*

### **Biography**

*David Hensher is Professor of Management and Founding Director of the Institute of Transport and Logistics Studies (ITLS) at the University of Sydney. He is on the editorial boards of 10 of the leading transport journals and Area Editor of Transport Reviews. He is also series and volume editor of a handbook series "Handbooks in Transport". David has published extensively (over 435 papers) in the leading international transport journals and key journals in economics as well as 12 books.*

The Auckland Public Policy Seminar Series is free to the public. No registration is required. If you would like to be on the mailing list for these seminars please contact [info@motu.org.nz](mailto:info@motu.org.nz).
