

E-Mission Possible

MOTU – Roundtable 29 November 2017

© Crispstart Limited The logo for Crispstart Limited, featuring the word "CRISP" in a light green, sans-serif font above the word "START" in a grey, sans-serif font. A small grey chevron symbol is positioned to the right of the word "CRISP".

“Do I Dare Disturb the Universe”

‘The Love Song of J. Alfred Prufrock’, T.S. Eliot

- **NZ Energy: A matter of Sovereignty.**
- **Action plan: Possible right now:**
 - **Liquid Fuels:** Shift to 3-5 users onto home grown drop-in renewable fuels
 - **Electricity:** Invest in community solar matched with peer to peer trading
 - **Vehicles:** Focus on hybrid and roll into electric (fully audited LCA basis)
 - **Data:** Leverage IoT/ real time data to trigger DRM (~20% shift)
 - **Reframe:** Energy as an export sector – alter capex driver
- **NZ is trapped in an application deficit and research loop**
